

21 Days Challenge Portal Brief

This is a development brief for the 21 days challenge portal

It will have a public section where everyone can access basic information on what the program is all about and how to participate. There'll be a closed section for only registered users, this is where the 21 days challenge happens.

PUBLIC SECTION

Information that can be accessed on the portal without user login (Open area)

- Communication banners
- Introduction to 21 Days Challenge
- Things you'll need to complete this challenge
- How to prepare for the challenge
- Impact video report of people that have taken the challenge (when available)
- Link to place order for the required publications/21 Days Challenge Pack

CLOSED SECTION

Sign Up/Registration

Data required are

- Full name
- Email
- Church (Optional)
- Zone (Optional)
- Start date for challenge
- Terms and conditions check box

Account activation/email verification

An activation email is sent on completion of online registration form with a welcome message, a summary program walk through and most importantly, an activation link. This mail will have contact details just in case there is need for user to get I tough with program admin.

Complete setup for the challenge

- Select categories of situation that needs to be addressed in 21 days

On providing the information above, a progress table will be presented to user with challenge categories selected and 3 extra editable columns for

1. Expected desire/outcome: User is expected to fill in this column with their dream or goal that they want to.

2. Scriptures: User is expected to fill in this column with verses of the scripture that directly addresses their situation. Scriptures can be extracted while carrying out the activities for the day
3. What you see and say now: User is expected to enter his/her personal confession with regards to each listed challenge and also note improvements observed

This progress table will be presented to the users to fill every day after they have carried out challenge activities for each day.

Notification for daily activities

This will be sent everyday to registered participants as reminders, with links to visit the portal to attend to the day's tasks/activities

Daily Content to deliver to users

This will be very interactive and intuitive for users as user will have a custom experience based on the date they entered for the challenge. Only the challenge for the day will be accessible to each user. Daily tasks/content will be delivered in the following formats

- **Messages for the day** to be delivered in video format. That can be played and paused by the user at will. Video page will have a comment section where users can be entering their comments while viewing the video. All users can view all user-generated comments. Admin will have access to moderate comment section
- **Ponder these words** will be delivered as Doodle video that can be shared by users. Doodle video will have to be watermarked. Users can give a thumbs up or thumbs down for the Doodle videos
- **Reading for the day** – This will be presented in both text and graphics. Users can give a thumbs up or thumbs down for this section
- **Affirmation** – This will be presented in both text and graphics. Users can give a thumbs up or thumbs down for this section

At the end of the task, the user will have to check a confirmation checkbox to confirm that he/she has completed the task for the day. If this check box is not clicked, the day's tasks will have to be repeated the next day. This is to help ensure the users follow through with all activities designed for the program.

Once the task completion confirmation check box is clicked, the progress table will be presented to the user to fill out the following for the day

1. Scriptures
2. What you see and say now

The desired outcome can only be filled once during progress table setup.

Super Admin Dashboard

This is where we are able to do the under listed

- Track each users progress
- Access user data (have an overview of all users. Both those that have completed the program, those in progress and any that might have abandoned their account)

- Moderate comments
- Publish and update content if the need arises
- Access to section to monitor church/zonal performance on the portal
